Ref. No...SSC/199-A/24   Dated..22 Aug 2024

Internal Quality Assurance Cell (IQAC)

Notice

Date: 22-Aug-2024

Subject: IQAC Meeting Discussion on Add-on Courses for Vocationalization

This is to inform all stakeholders that the **Internal Quality Assurance Cell (IQAC)** organized a meeting for the academic session **2024-2025**, where key recommendations were made regarding the enhancement of academic standards.

During the meeting, it was **unanimously recommended** that **add-on courses** be included as part of the institution's academic curriculum, aimed at promoting the **vocationalization** of education. These courses will equip students with specific skills, improving their employability and practical knowledge in various industries. The IQAC emphasized that the inclusion of such courses is in line with the institution's commitment to ensuring holistic development, bridging the gap between course work and industry demands.

Inclusion of Add-on Courses: A variety of skill-based courses to be introduced, focusing on vocational skills in fields, like:-
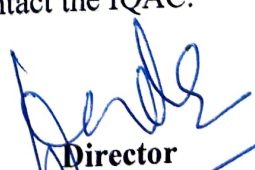

- E-Filing in Commerce Department,
- Computer Literacy in Computer Department
- Beauty and Wellness in Cosmetology Department.

The IQAC is confident that these measures will enhance the overall academic experience and better prepare students for the challenges of the modern workforce.

For further details or suggestions regarding the new courses, please contact the IQAC.
